SEVERE COLD WAVE COMING ON HIGH WIND

Pacific Northern Now in Throes of Cold- est Temperature

Chicago, Dec. 13—(AP)—Temperatures tumbled spectacularly today across the central west in the van of a cold wave. As the storm crossed the Rockies and the northwest plains, it left heavy snow and the coldest temperatures of the season behind it, and was responsible for deaths and accidents in a dozen states.

Six fatalities were attributed to the storm in the Pacific northwest. On Lake Michigan a car ferry was driven by a gale onto the rocks near Milwaukee early today.

An engine was derailed in the storm near Northrop, Minn., and passengers found for the Twin Cities walked a mile through drifted snow to reach a rescue train. Three youths crashed their car into a train at Hager, Wis., in blinding snow, but were unhurt.

As the storm advanced Nebraska and Iowa felt the first sub-zero weather of the season.

Schools Closed.
Schools were closed because of the severity of the storm at Duluth and at Watertown, S. D., while Mankato, Minn., reported ten foot snow drifts.

Drops in temperature of forty degrees at Des Moines, Iowa, in 24 hours and twenty degrees in Chicago, in three hours were heralds of the cold wave.

By tonight, the weather bureau said, the cold weather will be severe in the entire central west, with zero temperatures by tomorrow morning over the entire central forecast district except the extreme eastern and southern portions, where five degrees above zero will mark the minimum. There will be snow in most of the Great Lakes region.

Air mail movements west of Chicago were interfered with by the blizzard, and trains were delayed throughout the northwest. Stockmen were warned to care for range cattle and sheep. No word has been received from radio stations on the Aleutian Islands and the Alaskan Coast since Saturday.

Danville, Ill., Dec. 13—(AP)—Warren Woessner, 18, of Blytheville, Ark., and Robert Bockhoff, 20, of Watauga, Ill., confessed today to theft of a motor car from Blytheville, stealing of 111 chickens in Iroquois county and robbery of a Watauga oil station recently. They were arrested by detectives when they tried to sell the chickens.

in State Decreasing**

Chicago, Dec. 13—(AP)—Losses resulting through bank robberies in Illinois for this year amount to only \$45,811 while the 1924 losses were \$347,945, it was announced today by the Illinois Bankers Association which attributes the drop to organization of armed guards throughout the state.

**ROCK ISLAND GROCER MURDERED
BY THREE YOUTHFUL BANDITS IN
HIS STORE THERE SATURDAY EVE**

Rock Island, Ill., Dec. 13—(AP)—Search for three bandits who shot to death Charles E. Bladel, 65, Rock Island grocer, in his store Saturday night, continued over a wide area in Illinois and Iowa today, with little prospect of success. The slayers made their escape in an auto, and stories as to its model and make are conflicting. The police are without clues, no one having seen the bandits during the attempted holdup and murder. A school boy who saw them as they ran from the store, described them as boys.

Canton, O., Dec. 13—(AP)—A crowd of 300 persons stampeded the corridor of the court house here today prior to convening of the afternoon session of the trial of Patrick E. McDermott. Deputy sheriffs were forced to charge into the crowd to prevent bursting of the court room doors.

Mrs. Florence Mellett of Indianapolis, widow of the slain publisher, took the stand upon convening of the afternoon session.

In the witness stand with her was her four year old daughter Jane.

Canton, O., Dec. 13—(AP)—Vague reports of a plot to free Patrick E. McDermott, charged with the murder of Don R. Mellett, Canton crusading publisher, have resulted in the placing of extra guards around the defendant's cell in the Stark County workhouse.

A man whose name was not divulged but who said he had been "on the inside" of the alleged plot, told the police of the scheme, and extra precautions have been taken.

Mrs. Florence Mellett, wife of the publisher who was shot to death last July 16, was one of the witnesses called today in McDermott's trial.

Charge State A Party.
As a counter attack on the state's claim that Mellett was murdered in a plot hatched out of a bootlegger's defense, the defense of Patrick E. McDermott, one of the alleged murderers declared in trial court today that the prosecution also was party to a conspiracy.

Opening arguments and first testimony in the trial drew such a crowd today that nine special deputy sheriffs were called to restore order.

McDermott entered the court room unannounced.

Conferred With Judge.

Opposing counsel, Prosecutor C. B. McClelland and his assistants, H. W. Harter and J. W. August, for the state; and E. L. Mills, Homer Durand and James Embley, for the defense, went into the judge's chamber for a consultation as soon as court was called.

Upon their return, Prosecutor McClelland opened his statement to the jury of what the state expects to prove.

E. L. Mills then made his opening defense statement in which he contended Mellett had written a number of articles in which motives for murder might be found. He said the defense would show McDermott had nothing to do with the murder.

Coroner McQuate was the state's first witness. "I found Mellett lying on a lounge dead, at his home," he said in the course of testimony. "I found he had been shot through the left frontal bone of the head."

Attorney Mills contended in his opening argument that McDermott, Ben Rudner and Louis Mazer are being prosecuted as the result of a conspiracy between Prosecutor McClelland, the Canton Daily News, the newspaper of which Mellett was publisher, and J. R. Roach, Chicago criminal attorney. Roach conducted an inquiry into conditions of alleged

Author of Threatening Phone Calls Hunted by Authorities

Chicago, Dec. 13—(AP)—The wedding of Miss Barbara Truella and Dr. William Frenzel did not take place last night, although the bride was waiting and the guests were assembled.

Today, the police are looking for Dr. Frenzel and for a woman who warned Miss Truella two hours before the wedding that "Dr. Frenzel will never be your husband."

Last Friday, the same woman stopped Miss Truella on the street.

"You'll never marry William, Miss Truella," the woman said. "I love him and will have him."

Yesterday a woman, who said she was "Luella Brown," telephoned to the Truella home. "Barbara will never marry Dr. Frenzel," said the voice and the receiver clicked.

Police found a light burning in the doctor's office last night, but when they broke in they found no one.

There are two theories: that Dr. Frenzel was not foul play or that he changed his mind.

Officers are looking for a clerk at Dr. Frenzel's office to question her.

Agricultural Finance Bill is Reported to the House Today

Washington, Dec. 13—(AP)—A
committee of two substitute bureaus to separate research and regulatory activities of the chemistry and soil divisions of the Department of Agriculture was provided for in the department's appropriation bill carrying \$128,362,000 reported today.

The total amount appropriated, nearly \$80,000,000 was for maintenance of federal aid highway systems and many millions more to continue the relentless war against insect pests. The total was \$77,812 above current funds, but \$4,774,000 below budget estimates. The reduction was effected by paring down highway funds and authorizing use of unexpended monies previously appropriated.

Secretary Jardine appeared before the house appropriations committee, which drafted the bill, and recommended consolidation of the bureaus of chemistry and soils into the bureau of chemistry and soils.

Appropriations for the two new bureaus totaled only \$26,000 more than for the original divisions, the increase to be used in investigating plant-dust explosions and farm fires.

**Fog Caused Death

The party was en route to this city to visit Mrs. Lupo's husband who is employed here.

OLD MASTERS

Of Neptune's empire let us sing, At whose command the waves obey; To whom the rivers tribute pay, Down the high mountains sliding; To whom the scaly nation yields Homage for the crystal fields Wherein they dwell;

And every sea god pays a gem Yearly out of his watery cell, To deck great Neptune's diadem.

The tritons dancing in a ring, Before his palace gates do make The water with their echoes quake, Like the great thunder sounding; The sea nymphs chant their ac- cents shrill.

And the Syrens taught to kill With their sweet voice,

With every echoing rock reply, Upto their gentle murmuring noise, The praise of Neptune's empire.

—T. Campion: Hymn in Praise of Neptune.

One cup grated raw carrot, 1 cup grated raw potato, 1 cup light brown sugar, 1 cup flour, 1 teaspoon soda, 1/2 teaspoon cloves, 1 teaspoon cinnamon, 1/4 teaspoon salt, 4 tablespoons melted shortening, 2 tablespoons milk, 1 cup seeded and chopped raisins, 1/4 cup sliced citron.

Sprinkle 2 tablespoons flour over raisins. Mix grated carrot, potato and sugar. Mix and sift flour, salt, soda and spices. Melt the shortening in the mold in which the pudding is to be steamed. This greases the mold as well as prepares the shortening for the pudding. Combine all the ingredients, mixing thoroughly. Turn into greased mold and steam three and one-half hours. Serve warm with hard sauce.

This pudding can be reheated and used the second day.

A lemon sauce can be used if a less rich sauce is preferred.

A TRINKET BOUGHT ABROAD.

A young woman citizen of the United States bought a jade vase in Paris last June.

The shopkeeper of the pottery shop up on the heights of Montmartre could speak no English, but the buyer was convinced he understood that the vase was to be packed and shipped to the address given him.

The shopkeeper asked for 15 additional francs for packing and mailing, which was paid.

The young woman citizen arrived home in September. No jade vase purchased for 49 francs, or \$1.67, awaited her.

She wrote to the shopkeeper. There was no answer. She wrote to the American embassy. Some more weeks elapsed.

Then came a note from a New York concern, laboring itself "Customs Brokers and Forwarding Agents." There was a bill enclosed for \$7.01, including \$1 for duty, \$2.76 for foreign charges, \$1 for cartage, \$1.25 for appraiser's stores, \$1 for appraisement entry, total, \$7.01.

The young woman thirsted for information. Was it ever thus? Did all purchases made abroad land in the hands of "customs brokers and general forwarders"?

She wrote back. The "customs brokers" answered that the vase was consigned to them by a forwarding company in Paris with which most French merchants placed their wares, as they did not understand the export requirements.

They were very sorry that the vase now cost almost four times its purchase price, but then it was as much trouble to clear a \$2 package as a \$200 one, and that was that!

Well, so it was! The jade vase is still there in New York.

But the story isn't quite ended. Eventually there came a letter from the American embassy giving the full history of the case.

There seems to be two morals to this tale. One is that when you buy things abroad, you don't really know what you're paying for them. The other is that the American embassy will watch over American citizens, from missing jade vases to what have you.

THEY WALK APART.

The specter of that censorship which culled juicy bits from so many of the millions of letters which sluggishly crept from one side of the ocean to the other during the last war, has been walking these days.

It is the system of letter censorship in effect over all mail received by the jurors in the Fall-Doheny conspiracy trial.

All "sympathy" and "expressions of loneliness" are culled from all letters received from home by the doughty jurymen.

Such expressions as "How we miss you, Daddy Dear!" or "Susie prays each night that her Daddy will come home soon!" or, "I baked such a nice apple pie yesterday and thought how I wished you were here to eat it!" are prey for the censor's pencil, and die a quick and painless death, suffocated by gob of purple ink.

Court officials hold that such home epistles would shatter morale and foster rebellion in the breasts of the jurors, who may or may not be out of the court by Christmas."

Peace or war, as Sherman once defined the latter, it's probably all the same to Fall Doheny jurymen strong and true!

FREE AND EQUAL?

Only one American out of every three goes to school beyond the grades—the other two go to work at 14 and 15. Yet we continue to shout that "all men are born free and equal."

Until all men are so born that three out of three can have the chance at the same education that one of three has, we are not born so equal after all!

True, some argue that the other two do not choose to go to school any more. But why do they not so choose? We are all products of the vision given us by heredity or environment, and the two who do not choose to get more education are born no more free and equal than the two who cannot go because of poverty.

Vaudeville is 100 years old, says a headline. Well, well! God bless the mothers-in-law, after all, God bless them!

A Roman theater in a cellar has been discovered in Baalbeck. They must have had play censors in those days, too.

A gentleman is a man who agrees with you.

Mexicans, before a recent election, carried banners reading "We Don't Want American Assistance." We wish some other countries we know would follow that example.

A prohibition agent shot a man sitting on a keg.

Judges should take warning and not sit on too many cases.

Two of Europe's liquor kings are in this country. Studying American methods of merchandising?

Famous fallacies: "When you carry an umbrella, you know it never rains."

Gloria Swanson wants to find some nice quiet spot for a vacation. How about the Sesquicentennial grounds?

THE TINYMITES

BY HAL COCHRAN

READ THE STORY, THEN COLOR THE PICTURE

The Tinymites were tickled pink, found. Then Copy spied a baby doll without a leg or arm. "My goodness me. Just lookit here," he shouted, "why, I sady fear th' little doll has hurt itself, and come to painful harm."

"Ho-ho, ha-ha," laughed Santa Claus. "You needn't worry much because that little doll isn't hurt. She's just not finished yet. You see we make their bodies first. That's how they always look and worst. But after while, this little one her arms and legs wil get."

The first thing that they saw, inside, was one of Santa's men, who cried, "Ah, welcome little strangers. Have you come to see the sights? Wel, here's a dandy place to roam. Just try and make yourselves at home." Then Santa, very nicely, introduced the Tinymites.

"We're glad to meet you," Scouty said, "but if you're busy, go ahead. I think that we can find our way around this place alone." But Santa Claus then broke right in, and as his mouth spread to a grin, he said, "Why, I will show you 'round. The pleasure's all my own."

And so they walked around and round, and every sort of doll was

ruthlessly, and Faith saw burly men, some in uniform, some in plain clothes, passing constantly across those squares of light. Flashlights, in the hands of other police officers, twinkled here and there above the snow carpet of the lawn.

The old man who had lived in lonely splendor and who had died alone, unless his murderer had waited to see that his work was well done, was ironically permitted no peace in his death. He was playing the silent, though central role, in just such a drama as he had so many times described with realistic and horrible detail before a trial jury.

As these thoughts passed through Faith's panic-stricken brain, a sort of pity for the old man whom she had come to respect and like swelled in her throat. Cherry had liked him, too, even though she had found that she couldn't marry him. He had been so good to Cherry—and now—they thought Cherry had killed him. Cherry! Tiny, impulsive storm and sunshine Cherry, who could not stay angry more than a minute to save her life! Cherry, who, for all her selfishness and artful scheming, had never done a really wicked thing in her life!

When they entered the long, wide main hall of the beautiful old house, through the high-arched Gothic doorway, Faith saw at once that the Cluny clan has assembled. At the foot of the broad, curving staircase stood Alexander Cluny, old Mr. Cluny's only son, a prominent corporation lawyer, and beside him was his own son, young Ralph Cluny, the second, recently made an assistant district attorney.

"I had an usher get them out of the church before I saw you," Bob whispered to Faith. "I surely hope Alex's wife isn't here. She's addicted to hysterics."

"I'm glad Mrs. Allbright and Muriel are in Switzerland," Faith answered in a whisper, as the Chief of Police came shouldering his way through the small crowd in the hall.

The house itself was a lordly, gothic affair of cream-colored brick. A dozen delicately beautiful turrets pierced the thick gloom of the November night. Light poured from a score of front windows on all three floors. Shades had been yanked up

"Better one clean right off with the Chief," Boyle said calmly, as he looked at her curiously. "Won't help matters none to stall around."

"I don't know anything to tell him," Faith said duly, but her hands tightened on her handbag, where Cherry's farewell note lay tightly folded.

As the car picked a slow way through the jam of traffic before the church, Faith saw the Rev. Mr. Ashburn, divested of his black robe and white surplice, appear on the steps and raise his hands as if to deliver a benediction. He was evidently trying to aid the police in dispersing the crowd that milled about the snow-covered church lawn.

The Cluny mansion, less than half a mile from the fashionable St. Peter's Episcopal Church, was set in lonely magnificence in the center of a long city block. A tall, thick evergreen hedge enclosed the plot or ground on all four sides. Snow-laden fir and cedar trees dotted the high-teraced lawn. A long greenhouse crouched near the hedge on the right, supping the mansion with an endless variety of hothouse flowers.

LITTLE FUEL IN BIN FOR BURNING AT LEAGUES MEET

Trades and Re-election of Landis Main Items on the Program

Chicago, Dec. 13.—(AP)—Little fuel remained for hot stove deliberations as American League club owners gathered today for a week's session.

Managers to succeed all the deposed pilot stars have already been announced, though the future plans of some of the former general managers have not been disclosed. Commissioner K. M. Landis apparently has only to count the vote to earn his plurality for another term as baseball boss.

Player trading activities of new major league managers promises the principal activity of the week.

Collins to Name Team.

The promised announcement of Eddie Collins, former manager of the White Sox, that he would name the American League club he will play with next summer is one of the few definite events of the program.

National League owners meet in New York Tuesday and President Heydrich will bring his magnates here for a joint session Thursday.

To restore public favor after the disclosures which wrecked the White Sox, Landis, then on the Federal bench at Chicago, was persuaded to take the place of the old National Commission of three, at a salary of \$50,000 a year. Congressional clamor forced him to quit the ermine, rather than handle both tasks at the same time.

Landis is also the tie which binds the minor leagues to the majors, as their agreement ceases if Landis steps out, and the old draft rules which enable the majors to pick the cream of the minors, is one of the few definite events of the program.

Expect Many Trades.

Most of the minor league trading of the winter will be out of the way when the majors meet, as they held their sessions in Asheville, two weeks previous. But with seven new managers, five of them in the American League, the meeting likely will see considerable swapping of veteran talent by the new bosses.

It is an open secret that both the Cleveland and Boston American League clubs may be purchased, and the American League executives, who meet two days ahead of the joint sessions, may be called upon to vote in some new members. Tris Speaker and Ty Cobb, who quit as managers this winter, and with plenty of financial backing, may decide to continue the game as owners.

The American league solved one of the problems due to come up this winter, by voting last year to extend the term of President Ban Johnson.

Both leagues open their meetings on the same day, Dec. 14, the Nationals in New York, and the Americans in Chicago, and the Nationals come here on the 16th, while the Americans have set two days for their deliberations.

Landis Will be Returned to Post, Ball Men State

New York, Dec. 13.—(AP)—K. M. Landis, high commissioner of baseball, will be re-elected for a seven-year term at the joint meeting of the National and American Leagues in Chicago, Thursday, in the opinion of National League club owners in New York, for their own league meeting tomorrow and Wednesday. The circuit is expected to vote for Landis as a unit.

But the magnates of both leagues are chafing under the "benevolent despotism" of Commissioner Landis, the New York World said today. Dis-

A THREE DAYS COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Cremulsion, an emulsified creosote that is pleasant to take. Cremulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Cremulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cremulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

satisfaction is felt over the belief that the high commissioner has ignored the existence of the advisory council for no meeting has been called in the past two years, the paper says.

Eastern Golf Tourney Goes to Pacific Coast

Chicago, Dec. 13.—(AP)—For the second time in history a major golf tournament will be held on the Pacific coast, the 1927 western amateur title meet having been awarded to the Seattle Club by the Eastern Golf Association. The western open meets to the Olympia Fields Country Club of Chicago.

Ten years ago, the western amateur was played at Del Monte, Calif., but so few players from east of the Rockies were able to compete that the plan of going to the coast was abandoned until this year.

The western amateur will be played the week of July 18 while the national amateur will take place at the Minikonda Club, Minneapolis, Aug. 2, placing the two major Simon pure golf events west of the Mississippi river in 1927.

Newark, N. J., Dec. 13.—(AP)—Excellently does a world champion accept anything but a feature bout, but Phil Rosenberg, head of the bantam division to appear in a semifinal competition at the Christmas fund show Dec. 20. The appearance of another world champion, Jack Delaney of the light heavyweight, who tackles Bud Gordon of Wisconsin, his first heavyweight opponent in the main bout, forced Rosenberg into the minor role.

SPORT BRIEFS

Chicago, Dec. 13.—(AP)—Billy Petrolle, North Dakota, will meet Les Murray, Australian lightweight in a ten round engagement in Milwaukee a week from tonight. Murray defeated Solly Seeman, New York 155 pounds.

MRS. BEEDE TELLS OF HER JOURNEY TO SO. AMERICA

Dixon Lady Writes Entertainingly of Life Aboard Steamship

Mrs. Alice Beebe, Dixon woman, who sailed Sept. 11, from New York for a visit with her daughter, Mrs. Warren Saunders, in Antofagasta, Casilla B. Chile, South America, has written the following letter to The Telegraph, with the request that it be considered a personal remembrance to all her friends. Her ocean voyage was of three weeks duration:

On board the S. S. Santa Teresa—Nov. 21—I want to send greetings to my many friends in Dixon and to tell them that "all is well". We are having a most delightful trip with good weather and calm seas. We had two days of very rough sea the third and fourth days out from New York. No storm, but very strong winds with the waves and spray dashing up over the ship. Quite a number of us went into "retirement", but we have all been fine ever since then. Our course took us to the eastward of the Bahamas and toward the windward passage between Cuba and Haiti, through which we entered the Caribbean Sea.

The waters here were a most beautiful and sparkling blue. We passed Waving Island, said to be the first landing place of Columbus in the New World. On the fifth day we passed through the Windward passage and were in the Caribbean Sea. Our two days in the Caribbean were beautiful. We had expected rough weather there, but we have had a very smooth passage. The days are delightful and we are of watching the beautiful blue water and the schools of flying fish—tiny little things that dart in and out of the water. They spread their "wings", but do not use them for flying. They wiggle or flop their tails and that seems to give them a start, after which they literally fly through the air.

We arrived at Colon Wednesday evening about 6 o'clock and we went ashore, had dinner at the big hotel, and then visited the shops, which remain open in the evenings when a ship is in. Colon and Cristobal are separated only by the line of the Panama Railroad; but they are in striking contrast to each other. Cristobal is in the Canal Zone and under the jurisdiction of the U. S., while Colon is in the Republic of Panama. It was there that we found most of interest in the quaint shops, the gay restaurants and cafeterias, with the natives living almost in the streets.

As we passed the stores the people came running out and implored us to come in and buy. We visited the Chinese and Hindu shops, and found many lovely things at reasonable prices. But they told us never to pay the price asked, they expect you to "bargain" with them. The grocery stores were like open markets and I think we saw enough bottled goods to supply a great population. We returned to the ship for the night as we were to start through the Canal the next morning at 6 o'clock.

We were all up bright and early, and we said Good Bye to the Atlantic Ocean as we started on our 45-mile trip through the greatest inland waterway in the world. Soon after we entered the Canal at Cristobal we passed the old French canal, the work of De Lesseps, and the old dredges are still there, in ruins, and looking primitive in comparison with the wonderful machinery of the United States.

We passed the famous Culebra Cut, which was almost closed by a great slide. The big dredges are working there constantly and they are keeping the waterway open.

We arrived at Balboa and Panama City about 2 o'clock in the afternoon. Balboa is the Pacific entrance to the canal and it is interesting to know that here the Pacific is fourteen miles east of the Atlantic. We had

several hours here and we greatly enjoyed the trip through the two cities. Balboa is beautiful. Such lovely flowers and green lawns. Winding streets and fine homes! But Panama City is a quaint old town with very ancient homes of Spanish style with little over-hanging balconies, very narrow winding streets and queer little shops. We saw the ancient church which is in ruins since Morgan sacked Panama City in 1671. In some streets the women were doing their washings and we saw them pounding the clothes with paddles as they were spread out on the rocks. There were little heaps of clothes left to dry in other places on the floor or on the ground, without shaking them out as we do.

Panama City was most interesting and we were sorry not to have a longer stay there. Yesterday we crossed the line (equator) and we have a very important document—a certificate signed by Father Neptune himself—which we will have framed when we get home again. It certifies that we have crossed the threshold of his southern kingdom and that he welcomes us.

This morning we made our first port of call in South America, when we stopped at Talara. The ship anchored out in the bay and the tugs and lighters came out to take the passengers and freight ashore. It is a very barren looking place, but there are great oil fields there, operated by the British. We went ashore and I should dislike to have to live there and buy food from the markets we visited. The food, including meats and fish, was all exposed to the flies and dust, and some were taking home without a bit of paper to cover it. Awful looking bits of meat in baskets. Saw an old woman with little green leaves pasted on her forehead, which they said were to cure a headache. The whole place was most primitive and one could imagine nothing more unsanitary.

We have about seventy-five passengers on board, including a number of children, and several small babies. The ship is spotlessly clean, the food is fine and the service is unexcelled. All the help is Chinese and our soft-footed "cabin boy" has been on the seas for 35 years. Our call to meals is sounded by a Chinese boy who goes about on the different decks playing the Chinese dinner chimes, deep, melodic, beautiful tones. I remarked one day that I'd like the chimes as a souvenir of the ship, and the Chief Steward brought me back to earth by saying: "We bought them in China."

There is a young Peruvian doctor on board with his wife, who is quite a beauty, and she speaks but a few words of English, but the Doctor speaks five languages and he is teaching Mary Alice to speak Spanish. They are returning to their home in Lima. We also have Mr. and Mrs. Collier, the former being U. S. Ambassador to Chile, and they, of course, live in Santiago. We have formed some very pleasant friendships, and are enjoying the trip very much.

We expect to land in Barqueta on Nov. 30. In the meantime we will have Thanksgiving dinner on board and tomorrow night is the "Captain's dinner", which is always very nice. It is wonderful how the time slips by, and we don't seem to have time for fancy work or to read a book! There is always something doing or something to look at! We are traveling now along the coast of South America and are in sight of land much of the time.

Nov. 22—We are anchored in the bay at Salaverry and they are unloading freight here. I took a picture this morning of a Ford as it was being hoisted out of the hold. Then it was swerved over and dropped into the lighter along side. I counted twelve Fords and there may have been more. Each one was in a huge box and a steel cable is slipped around each one when the big crane picks it up and over it goes. One of the passengers told us this morning of being ashore on one of these little places and seeing an old street car drawn by a mule, while it took three men to operate it—one to drive, one to collect fares and the third to go ahead and throw stones at the mule to keep it going!

It was quite warm through Panama, but there was always a cool breeze and much to our surprise it was cold on the equator and we have needed wraps since then whenever we have been on deck. They tell us it is on account of the Humboldt current coming up from the south, which makes the west coast of South America very cool.

Tomorrow we are going ashore at Lima, Peru, the "City of Kings". We

Jan. 24—Accidental automobile deaths in 1925 totaled 21,000, a 5 per cent increase over 1924.

Jan. 25—President Coolidge approved suspension of Colonel William Mitchell, aviation chief.

PROSPEROUS RAILROAD IN KANSAS IS UNIQUE

Wichita, Kan.—(AP)—The Wichita Northwestern railroad, one of the most prosperous in the state, is also one of the most unique.

The headquarters of the company are at Hutchinson, although it does not run within 50 miles of that city. Although it is known as the Wichita Northwestern road, its nearest point is 80 miles from here.

The line penetrates a wealthy agricultural district.

Grand Commander Coe of Dixon One of Honored Men

almost a commonplace of the sea, yet carries implications of a glorious fortune. "The wireless operator," they said, "wrote down in his cabin, still sending out the SOS."

From all over the world came stories of storm and shipwreck, and heroic rescue in answer to the SOS. A little freighter last January encountered a storm in mid-Atlantic that was too much for her. With her equipment washed overboard by the waves she began to founder in the sea. But her SOS had gone out, and was picked up by a great ocean liner, which hurried to her assistance.

Entire Crew Saved

The Antioch sank but her men were safe aboard the President Roosevelt, thanks to the spirit of courage and brotherhood among sailors, and the marvel of the wireless.

During the exigencies of the general strike in England last spring over a thousand vessels were permitted to sail without wireless operators. It was made the subject of a question in the House of Commons. Yet there are a few ships which rely on themselves alone, as of old.

One of these was the Manchester Producer, a freighter which to lessen the suffering of her cargo of cattle, attempted to change her course in January storm. Her steering gear broke, and half of the terrified cargo, bellowing wildly, had to be driven overboard to keep the ship from capsizing. Unable to summon help, the Manchester Producer drifted for weeks until the food gave out and the remainder of the cattle had to be hoisted one by one from the deck and dropped in to the sea to save them a more agonizing death from starvation.

More than a month passed, and the Manchester Producer was more than a thousand miles off her course when she was found by a Dutch tug and towed to the Azores.

Two Bad Hurricanes

Within ten months there have been two hurricanes that swept the south Atlantic seaboard and the Weather Bureau has sent out ninety-nine storm warnings to ships at sea. Those who insure shipping say this year's losses have not yet been completely computed, the figures showing that insurance rates, based on the use of radio, became general, have been reduced. Many ships which otherwise would have been a total loss have been saved by wireless and towed to port.

Wireless has changed the stories of the sea which are now those of thrilling rescue rather than of total disaster and lonely death. The Royal Insurance Society gave its medal for the bravest deed in 1925 to a sailor.

With the wireless a new hero was born—the radio operator. Half forgotten by the passengers so long as all goes well, his is a courage not of action but of endurance. In the Bermuda storm of last October, the Valentine, a British naval sloop, turned turtle. By the time the cruiser Capetown had found her way to the scene only nineteen survivors of the crew of one hundred and three could be found clinging to the life rafts. In a bald statement they told a story which is

Sir Knights in full Templar uniform, under the command of H. H. "DON'T TELL THE WIFE," starring Irene Rich, is a Warner Bros. picturization of this novel.

SYNOPSIS

Ranny Forbes, star polo player, and his beautiful wife, Joan, are temperamental misfits. Joan wants a divorce. Ranny hesitates, loving her, although secretly knowing she loves Abner Gratzman. While they lounge on a week-end cruise on the Stinson yacht, Abner, vamps Ranny, arousing Stinson's jealousy. Ranny avows Clare means nothing to him, mollifying Stinson. Ranny punishes Abner in a way that nearly costs his life and Joan's. Later, Joan is overjoyed when Ranny tells her he will get divorce. He is friendly to Abner and sentimental to Joan in a way that subtly affects her infatuation for Abner.

CHAPTER XVI.—Continued

Ranny was being transported from one mood into another with astonishing rapidity. Gone the tearful voice; in its stead an aggressive, threatening timbre, as he stood over Abner, eyes flashing fire. He thundered:

"Mind you, boy—if you're not good to her, you'll have me to answer to!"

"Yes, sir!" quaked Abner. "First you are ridiculous—now you're dramatic. Ranny, do behave! He won't bully me, I'll assure you," said Joan.

Ranny experienced another change of mood. To levity this time. "I reckon not," he said dryly. "You're bigger than he is, eh, what? If he wanted to kiss you on the brow, as I did, he'd have to stand on a chair—droll, what?"

Joan and Abner, however, seemed more uncomfortable than amused.

Again a change. Earnest, this time; admonitory:

"Remember, Joan, it'll be over in six months unless you gum things up. Under no circumstances must

"Aren't you going to call me 'dear' anymore?"

"You ever come to my home in Minnesota?"

He bade them good evening, and went out.

"Joan, dear," chortled Abner, "isn't this a wonderful surprise?"

Joan was not paying any attention to Abner, and did not hear him. She was saying softly, half to herself:

"Now I wonder why he's so anxious to have me stay away from his house—in Minnesota? Is it because she's going to be there perhaps?"

CHAPTER XVII

The very next day Ranny went away.

He told Joan that in the interview of the evening before with Stinson at the Club he had made complete arrangements, and there was, of course, no purpose in delaying his departure.

"You know, Joan, the sooner—"

"Aren't you going to call me 'dear' any more?"

"Why yes, that is, if it is quite the proper thing to call another man's names by any such honeyed expression!"

"I'm still your wife, you know," coldly.

"How," he affected to puzzle, "can you be my wife and his fiancee? I say, now, that's bigamy in spirit if not in letter, eh, old dear? Besides, there's a point of personal safety involved. I don't want to have an indignant bantam rooster like Abner thrash me for being too affectionate with my—er, with his fiancee!"

"You needn't have much fear on that score. To call Abner a bantam rooster is, to say the least, gross exaggeration."

"My dear, you're not defending the man of your heart as enthusiastically as a thrilled bride-to-be should! Surely you don't entertain doubts of his manly prowess—but enough of that now. We won't quarrel about whether or not Abner Gratzman is a bantam rooster. One thing, at least, is a dead certain fact. He's a mighty lucky duck to have won the love of so splendid a woman as you."

"Thank you, Ranny," in surprise, and with a not unpleased smile. "If you had voiced as much appreciation of me during marriage as you are on getting out of it, things might not have reached this pass."

Porcupines Endanger Pacific Coast Timber

Portland, Ore.—(AP)—The "treacherous" porcupine now has Uncle Sam camping on his trail.

The biological survey of the government is after the needle-clad creature because of destruction of timber as it has been found the porcupine is fond of eating green bark. One animal frequently has been observed to girdle 25 young trees in a day.

An extensive study of the animal is being made in California, Oregon and Washington to find a way to eliminate the menace to timber without harming the protected animals.

MOM'S POP

Ranny shrugged deprecatingly. "There's no use mooning over split love."

"Still we needn't have been so abrupt about things. We might have held a bit of a farewell party, just you and I—"

Ranny was matter-of-fact. "About all things, let's avoid mawkishness. Now that we're decided on our course, courtesy should be the watchdog. Curtail the agony, you know. This brings me back to what I was going to say when you began to argue—"

"Ranny Forbes, I never argue!"

"—that's calmly. The sooner I reach Minnesota and establish residence the sooner you will be free to fly honorably to the strong refuge of Abner's arms, the safe haven of his manly bosom."

Ranny's face was perfectly straight, and Joan searched it in vain for signs that he was making game of her.

"You seem to be in a desperate hurry to get free."

Ranny's face reflected his astonishment. "Why, I thought it was YOU who wanted the nasty thing over with as soon as possible."

"I do, but—yes, of course I do."

The uncertain quality in Joan's voice and manner dissipated suddenly. In its stead there came the decisive crispness of the Joan whom Ranny knew best. The defiant Joan Forbes!

That ended that.

And so Ranny went away.

No sooner had he gone than things began to happen. Little buzzes began in the beginning—thunderclaps before long.

It started when Joan suddenly remembered that Ranny had not mentioned any temporary hotel address to which he wanted his mail sent. In fact, now that she was reminded along that score, he had not even declared that he would ever write to her, after he got settled, to give his address.

Perhaps he had thought she could find it out from Stinson if she were anxious to know it.

Still, he might have been more thoughtful. That was Ranny, though; HER Ranny. Thoughtless and carefree as a boy.

She fished casually with her maid, knowing that the girl had been "keeping company" with Ranny's valet. An underneath romance that had been diverting to her and Ranny before—well, before they had ceased to be sensitive to the romantic things of life.

Ranny had taken his valet with him, of course—Hungarian, who had been in his employ for a dozen years, and was as essential in Ranny's richly ordered scheme of life as a collar button.

"Mimi," probed Joan, "of course you're going to write to Yarnie in Minnesota?"

"Menocota, Madam? That's not their name he gave me. Eat eas, you say eat, Edsayho!"

"IDAHO!" Joan gasped. "Why, you must be mistaken. Mr. Forbes said they were going to—"

Joan checked herself. She could not discuss the authenticity of Ranny's information with her maid, of course. So she just stared at the girl—stared and stared and pondered.

Then, if that were not mystifying enough, an encounter with Mrs. Tefens that afternoon of a meeting of the Park Avenue Women's Committee on Penny Lunches for Poor Picknickers, of which both were leading lights, shot her higher into the air.

Mrs. Tefens took the very first opportunity to get Joan aside with malicious cordiality and friendliness, and gab: "My dear, congratulations. I've heard the news. Everyone has. Ranny has gone to Nevada to get a divorce."

"NEVADA?"

"Why, yes, of course," giggling. "Proud creature, don't look so much as though you're getting NEWS. Ranny has told it all around." Mrs. Tefens grew very confidential. "Of course, he did warn everyone not to tell his wife WHERE he was going, but we thought—"

"You thought correctly, my dear Mrs. Tefens. Just one of Ranny's little ploys. Droll led, Ranny!"

"Nevertheless," sniffed Mrs. Tefens to another friend, as Joan walked away, "something tells me Ranny Forbes did NOT tell his wife where he was going! I believe he was in earnest for once in his life!"

"I wonder," raged Joan inwardly. "Why he doesn't want me to know the truth as to where he's gone? What is he trying to put over on me, with all this idle talk? 'Don't tell the wife nonsense!'

The "worst," following immediate precedent, was yet to come!

The telephone rang that evening while Joan was dressing to go with Abner to the Opera opening. His premonitory jangling carried so strange a forewarning of trouble that Joan knew it was bad news even before she took the phone from her maid, who said, grimacing:

"Oh, he eas so excited he almost break my cardum. Eat eas Monsieur Stinson, Madam!"

The book committee reported 80 new books placed on the shelves during the year—52 adult, which included 6 non-fiction, 23 juvenile, also a donation of 20 books, making a total of 166 books which certainly shows splendid work on the part of the committee. The President and her officers are to be congratulated on the way the library has been handled the past year. Twenty-five new members have been added to the list which shows that the community is interested in the library. There are now over two thousand books on the shelves. Books for all ages. A nice line of books for the little tots with pictures. In fact there are books for any and everyone. If you are undecided what to give that boy or girl for Christmas, why not give them a membership card in the library. It is only fifty cents for the year, which entitles the holder to two books a week. No better Christmas present could be found that will give pleasure twice a week at such a small sum of money. The library is open every Wednesday and Saturday afternoon from 2 to 5 o'clock and every Saturday night from 7 to 9. Miss Clara Lahman, the librarian is always present and will assist in any way in selecting a book. Lets make fifty new members by the first of the year. Teach the little ones to go to the library and get their books and look at them, and later on they will be loyal members of the same. Lets boost the library.
